General Instructions

Utah residents may take a nonrefundable credit against their individual income tax, corporate franchise or income tax, or fiduciary tax of 20 percent of qualified rehabilitation expenditures costing more than \$10,000 incurred in connection with any certified historic residential building. When qualifying expenditures of more than \$10,000 are incurred, the credit shall apply to the full amount of expenditures.

This credit is allowed only against any Utah tax owed beginning in the tax year in which the project receives final certification by the State Historic Preservation Office.

Part B of this form must be completed and signed by an authorized representative of the State Historic Preservation Office, 300 S Rio Grande St, SLC, UT 84101; telephone (801) 533-3500; history.utah.gov/historic_buildings/financial_assistance/index.html.

Procedures

Taxpayers must file an application for approval of all proposed rehabilitation work with the State Historic Preservation Office prior to the completion of restoration or rehabilitation work on the project. The application shall be on a form provided by the Division of State History. *It is recommended you file your application before starting work.*

Rehabilitation work must receive a unique certification number from the State Historic Preservation Office in order to be eligible for the tax credit.

In order to receive final certification and be issued a unique certification number for the project the following conditions must be satisfied:

1. The project must be completed.
2. Upon completion of the project, the taxpayer shall notify the State Historic Preservation Office and provide that office an opportunity to review, examine and audit the project. In order to be certified, a project shall be completed in accordance with the previously approved plan and the Secretary of the Interior's "Standards for Rehabilitation."
3. Taxpayers rehabilitating buildings not already listed on the National Register of Historic Places shall submit a complete National Register Nomination Form. If the nomination meets National Register criteria, the State Historic Preservation Office shall approve the nomination. The building must be listed in the National Register within 3 years of certification.
4. Projects must be complete and the \$10,000 expenditure threshold met within 36 months of the original project approval.
5. During the course of the project and for three years thereafter, all work done on the building shall comply with the Secretary of the Interior's "Standards for Rehabilitation."

Taxpayers must calculate the amount of credit claimed against their income tax, corporate franchise or income tax, or fiduciary tax in Part C. Credit amounts greater than the amount of Utah tax due in the initial credit tax year may be carried forward to each of the following five taxable years.

Historic preservation tax credits carried forward shall be applied against Utah individual income tax, corporate franchise or income tax, or fiduciary tax due before the application of any historic preservation credits earned in the current year and on a first-earned, first-used basis.
